Viper Vacuum Stabilizer

Soft and Secure Beating Heart Stabilization Technology

The Viper Vacuum Stabilizer™ combines Soft-Touch™ footpads for minimal tissue trauma and excellent stability for access to all coronary arteries.

Viper Features

• Soft-Touch footpads minimize tissue trauma
• Malleable footpads provide optimal positioning
• Rotating footpads thin epicardial fat
• Integrated Blower-Mister optional feature
• Stabilizer fits other sternal retractors
Viper Vacuum Stabilizer System

The single-use Viper Vacuum Stabilizer with its unique footpad design and flexible material delivers superior stability and performance during beating heart procedures.

**Soft-Touch Vacuum Footpad**
- Raised-ridge cavities lock in vacuum
- Maintains suction on uneven cardiac contours

**Retractor System**
- Low profile rail system with disposable suture stays
- 3-sided mounting

**Attached Blower-Mister**
- Eliminates need for operator assistance
- "Hands free" operation
